Publication

M. J. Luckow and T. Fluschnik. "On the Computational Complexity of Length- and Neighborhood-Constrained Path Problems". In: *Information Processing Letters.* Vol. 156 (2020).   1/2020

Technical Expertise

C/C++, Java, Python	● ● ● ○
Latex	● ● ● ○
Haskell	● ○ ○ ○
Linux	● ● ○ ○
Solidity	● ● ○ ○
Javascript, Vue.js, Node.js, SQL	● ● ○ ○
Datev Uno	● ● ● ●

Work Experience

Technical Acountant   **Agilo-Services GmbH**
Analysis, optimization and automation of the accounting system
`Datev Uno  /  Haskell`   9/2020 − present

Web Developer   **Trado GmbH**
Programming and maintenance of the internal administrative software
`Javascript  /  Node.js  /  Vue.js  /  SQL`   3/2018 − 4/2018

Technical Specialist   **Envion AG**
Analysis of Cryptocurrency market
Devolopment of the first mining operations prototype
Supervision of the production of the first large scale mining operation
`Linux  /  Solidity`   6/2017 − 11/2017

Education

Master of Science. Computer Science   **Technical University of Berlin**
Specialisation in cognitive systems
`Java  /  Python  /  Solidity`   4/2017 − *3/2013*

Bachelor of Science. Computer Science   **Technical University of Berlin**
Area of study in foundations of computing with the thesis on algorithms and complexity
`C/C++  /  Java  /  Python  /  SQL  /  Latex`   4/2017 − *3/2013*

Language Expertise

German: Native speaker
English: Advanced
Latin: Latinum

2023

- 3/2023 M.Sc.Thesis
- Technical Accountant
- Master of Science Computer Science
- 1/2020 Publication
- Web Developer
- Technical Specialist
- 3/2017 B.Sc. Thesis
- Self-employed
- Bachelor of Science Computer Science
- Energy and Process Engineering
- Assistant in surgical ward
- 6/2010 high-school diploma

2010
